MMA - New Payment Allowance Percentages for DMERC Drugs

Note: This article was revised to contain Web addresses that conform to the new CMS web site and to show they are now MLN Matters articles. All other information remains the same.

Provider Types Affected

Suppliers and other providers who bill for certain drugs and biologicals not paid on a cost or prospective payment basis.

Provider Action Needed

Affected providers and suppliers should note that this instruction adds a payment limit percentage for the drug Capecitabine (Xeloda).

Background

Effective January 1, 2004, the payment limit allowance for J8520 (Capecitabine, 150 mg) and J8521 (Capecitabine, 500 mg) will be 90 percent of the April 1, 2003 Average Wholesale Price (AWP). While this change is effective for these codes as of January 1, 2004, Medicare does not plan to search their files to make any adjustment to claims already processed, unless the provider brings such claims to the attention of their DMERC or fiscal intermediary (FI).

Implementation

The implementation date for this instruction is March 26, 2004.
